

Oily Waste Can

Esnico oily waste can is designed to solve the issue of temporary storage and disposal of waste, to prevent leakage of hazardous chemicals and to reduce potential safety problems.

Model: SC00601

Model: SC01001

Model: SC01401

Model: SC02101

The oily waste container has special lid whose opening angle is no more than 60 degree. The self-closing lid design ensures the rag can tightly closed in the absence of external force. The size to choose are from 6 Gal to 21 Gal.
