

Technical Data Sheet | TT65

Drip Tray | 65ltr Sump

This 65ltr capacity compact drip tray is manufactured from recycled polypropylene and is ideal for applications such as; battery storage, the storage of drums at a chemical dosing point and catching leaks from vehicles, plant or machinery.

Product Specifications

External Dimensions (WxLxH)	550 x 1000 x 150mm
Unit Weight	Approx. 2kg
Sump	65ltr
UDL	-
UK Pack Size	126
Export Pack Size	126

Product Features and Benefits

- Offers ample containment for spills and leaks, helping maintain a clean and safe work environment.
- Ideal for use in areas with limited space while still providing effective spill containment.
- Eco-friendly construction supports sustainability goals without compromising durability or chemical resistance.
- Suitable for battery storage, chemical dosing points, and under vehicles or machinery to catch leaks and drips.
