

## PURE POLYPROPYLENE SORBENT

# SL-GP2

- Water & Chemical absorption capacity L/KG\*: 15L
- Oil absorption capacity : 10.5L
- Net weight: 7 KG
- Qty / pallet: 20

A universal sorbent pillow is designed to absorb and contain spills or leaks of various substances. These pillows are typically made from absorbent materials that can handle liquids, oils, or chemicals, making them useful in industrial, environmental, or household settings. They can be used to manage hazardous materials, prevent slips, and keep areas clean and safe.

**Box of 10 Cushions 40X40 CM**

## APPLICATION

<b>GREY HYDROPHOBIC</b>	<b>Absorbs a wide spectrum of products (acids, alkaline solutions, acetate, chlorinated solvents, benzene, toluene, water, oil, etc...).</b>
	<b>To Absorb and Clean Small Quantity.</b>
<b>CUSHIONS INDUSTRY</b>	<b>Line drip trays, use when carrying out maintenance of valves or pipework or as part of your spill response plan.</b>
<b>FLOCKS</b>	<b>Standard absorption capacity</b>

## PRODUCT

Our Maintenance Pillows are Grey in colour and are made from a spunbond outer layer for fast wicking, with a recycled hydrophilic absorbent and are stitched around the outside. These are ideal for spills inside absorbing both water and/or oil based liquids. Pillows are used to catch spills under machinery or where drops and leaks are a problem. They are also ideal for absorbing spills in difficult to access places or where pooling of a spill has occurred.
