

## PURE POLYPROPYLENE SORBENT

# SL-GR1

- Universal absorption capacity L/KG\*: 192L
- Net weight: 9.8 KG
- Qty / pallet: 20

Universal absorbent rolls are versatile products used primarily for cleaning up spills and managing fluids in various environments, such as industrial, commercial, and home settings. They are designed to absorb oils, water, and other liquids, making them essential for maintenance and safety.

**1 Bag of 1 Rolls 76cm X 46m length perforated bonded and laminated**

## APPLICATION

<b>GREY HYDROPHOBIC</b>	<b>Absorbs most industrial liquids (hydrocarbons and derivative products, cutting oil, hydraulic fluids, coolants, mineral oil, solvents, water, etc...).</b>
	<b>For the highest absorption speed and capacity when dealing with liquids on the ground or the surface of water. The absorbed amount is proportional to the thickness of the product. Products for spill response are not perforated. For proactive industrial applications pads and rolls are perforated to save you money.</b>
<b>ROLLS</b>	<b>For minor leaks and spills in the workplace, on land or water. Example: minor leaks at a fuel delivery poing.</b>
<b>HEAVY WEIGHT</b>	<b>Standard absorption capacity for prevention of drip-dryings.</b>

## PRODUCT

Made from 100% Polypropylene with a sonic bonded core complete with a spun bond top layer. The Universal Roll is our most absorbing Universal roll. The largest and most absorbing Universal Roll we do, offering a great solution to larger spills within the workplace. This roll will offer the maximum absorbency available.
