

PURE POLYPROPYLENE SORBENT

SL-CC1

- Chemical absorption capacity L/KG*: 4.5 L
- Water absorption capacity L/KG*: 2.7 L
- Net weight: 7 KG
- Qty / pallet: 24

A chemical absorbent pillow is specifically designed to absorb a wide range of chemical spills, including hazardous and non-hazardous liquids. These pillows are essential in industrial settings, laboratories, and areas where chemicals are stored or used.

BOX OF 20 CUSHIONS 25X40 CM

APPLICATION

YELLOW HYDROPHOBIC	Absorbs a wide spectrum of products (acids, alkaline solutions, acetate, chlorinated solvents, benzene, toluene, water, oil, etc...).
	To Absorb and Clean Small Quantity.
CUSHIONS INDUSTRY	Line drip trays, use when carrying out maintenance of valves or pipework or as part of your spill response plan.
FLOCKS	Standard absorption capacity

PRODUCT

Our Chemical Pillows are yellow in colour and are made from a spunbond outer layer for fast wicking, with a treated hydrophilic absorbent and are stitched around the outside to avoid any chemical reactions. Pillows are used to catch spills under machinery or where drops and leaks are a problem. They are also ideal for absorbing spills in difficult to access places or where pooling of a spill has occurred.
