

Wall Mounted Eyewash

ESW020MS

Wall mounted eyewash is directly installed on the wall of the work site. When the user's eyes, face, neck or arms are harmed by chemicals, the wall mounted eyewash is selected for flushing with large amounts of water.

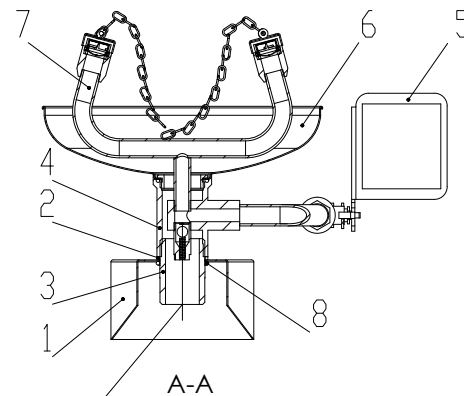

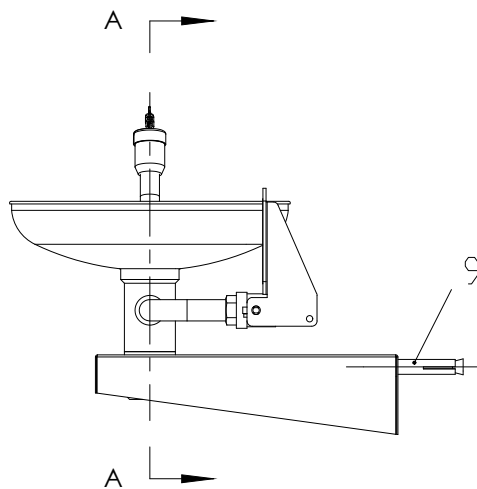

Standard type of wall mounted eyewash. The stainless-steel nozzles with filters provide aerated streams for rinsing eyes softly, flushing harmful substances quickly and reducing damage on eyes.

Specifications

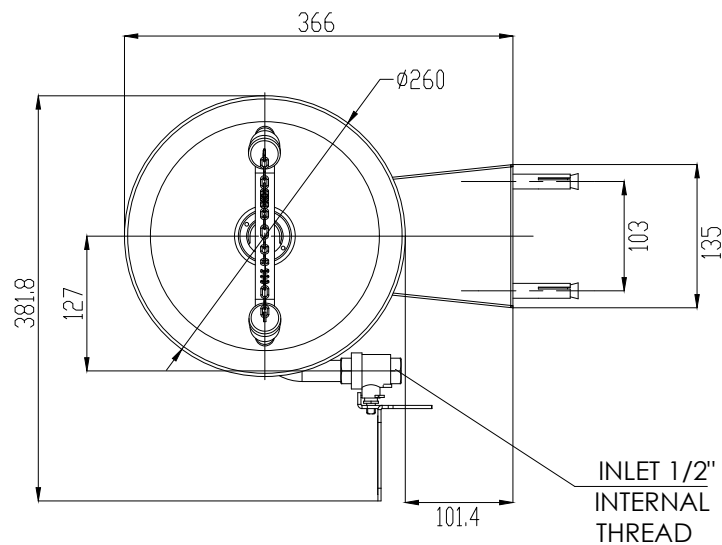

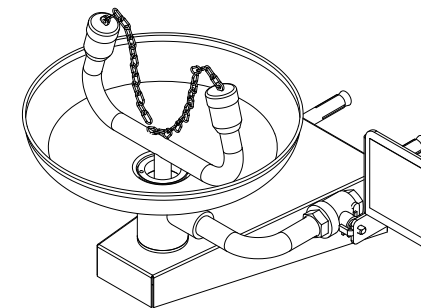

MATERIALS OF CONSTRUCTION	
PIPE & FITTINGS	Stainless steel 304
OPERATING VALVE	Stainless steel 304
EYE WASH BOWL	Stainless steel 304
EYE WASH NOZZLES	Stainless steel filter mesh
PUSH PLATE	Stainless steel 304

OPERATIONAL DATA	
WATER INLET	1/2" internal thread
WATER OUTLET	1-1/4" external thread
OPERATING PRESSURE	250 to 400kpa
MINIMUM FLOW RATES	11.4 L/min (3gpm)
AMBIENT OPERATING TEMPERATURE	5°C-35°C
PACKING SIZE (WxDxH)	360mm x 360mm x 155mm
WEIGHT	3.4kg

OUTLET 1 1/4"
EXTERNAL
THREAD

INLET 1/2"
INTERNAL
THREAD

NOTE

1. PARTS SHALL BE INSTALLED ACCORDING WITH MANUAL AND PROPER PLUMBING PRACTICES
2. ALL DIMENSIONS ARE IN "mm" UNLESS SPECIFIED
