

Portable Eyewash Station

ESW06108

The Portable Eyewash Station is a reliable and essential safety device designed to provide immediate decontamination to the eyes and face in case of exposure to hazardous substances. Ideal for laboratories, construction sites, and industrial environments, this portable unit ensures compliance with safety standards and provides peace of mind.

Features:

- **Portability:** Lightweight and easy to transport to various locations.
- **Durability:** Constructed with high-quality, corrosion-resistant materials.
- **Ease of Use:** Simple activation mechanism for quick and efficient operation.
- **Visibility:** Brightly colored for easy identification during emergencies.
- **Maintenance:** Low maintenance design with easy-to-clean components.
- **Capacity:** Holds up to 8 gallons (30 liters) of flushing solution.
- **Flow Rate:** Provides a consistent flow rate of 0.4 gallons (1.5 liters) per minute for 15 minutes.

SPECIFICATIONS

MODEL NO.	ESW06108
CAPACITY	8GAL/30L
FLOW RATE	0.4GAL/1.5L per minute
AMBIENT OPERATING TEMPERATURE	5°C-35°C
MATERIAL	PE
DIMENSIONS (H x W x D)	365 mm x 550mm x 365mm
WEIGHT	7KG
FLUSH TIME	≥15min
WATER PRESSURE	Gravity-fed
COLOR	Green
STANDARD	ANSI Z358.1-2014
MOUNTING OPTIONS	Wall-mountable, freestanding
MAINTENANCE INTERVAL	Monthly inspection and annual full service
